Hello—

Please find attached the final version of the Merrimack biological memo.

Thanks and we hope to see you again next year!

Kelly

Hi Kelly –

We had a good biological discussion on the call yesterday. Eric is satisfied with the memo, so I think you can go ahead and finalize. My only comment is that it probably should not be addressed to Sharon DeMeo. You can put either me or Eric Nelson as the Region I recipient.

Thanks to all for the good work on this. We very much appreciate the thoughtfulness of the review and the timeliness of the deliverable.

Happy Holidays!

Damien

Hello—

As the second part of our support for Merrimack, please see attached for a review of the 4 biological questions for 316(a) and (b). The memo addresses items 1, 2, and 4, while the attached spreadsheet completes task 3. Please let us know if you have any questions.

Based on our earlier conversations, this likely concludes the support for Merrimack for this calendar year, but we look forward to providing any assistance you may need next year.

Thanks and have a happy Thanksgiving!

Kelly

Subject: Merrimack Station secondary environmental factors review

Hello—

Please see attached for our memo reviewing the Enercon documents regarding secondary environmental factors associated with closed-cycle cooling. We look forward to your comments and would be happy to participate in any follow-up calls as needed.

Thanks

Kelly
